Chapter 1 Introduction

Thank you for choosing our **4-in-1 Wireless Media Presenter**
—“**Totally Control Your Presentation and PC Multimedia**”

■ ***What's the benefits***

□ **4-in-1 multi-function**

The 4-in-1 Wireless Media Presenter combines the features of the PowerPoint Controls, Laser Pointer, Wireless Mouse and PC Multimedia Remote Control into one elegant device. Excellent 2.4GHz RF technology enables you to control the computer up to 100 feet (30 meters) away from the receiver (connected to the USB port), the laser pointer functions up to 130 feet (40 meters) from the target.

□ **Making your presentation easier and more successful**

When making presentation, with the 4-in-1 Wireless Media Presenter, you don't need to stand beside your notebook computer or have an additional person to assist you, nor do you need to aim at the USB receiver.

□ **Having your own way to your PC Multimedia**

When enjoying your PC multimedia, the 4-in-1 Wireless Media Presenter provides you with a single tool to manage your Windows Media Player or iTunes running on Windows®.

□ **Easy to use**

The 4-in-1 Wireless Media Presenter is a USB plug-and-play device with no additional software required. The laser beam safety switch protects people from unintentional laser beam into human eyes.

□ **Easy to carry**

The patent slim RF receiver integrated with the Presenter, it can be easily put in the lightweight, protective carrying case when traveling.

■ ***Equipment Checklist***

Carefully unpack your 4-in-1 Wireless Media Presenter, and make sure you have all the following items:

- | | | |
|--------------------------|---|---|
| <input type="checkbox"/> | 4-in-1 Wireless Media Presenter | 1 |
| <input type="checkbox"/> | USB Receiver(attached in the back of Presenter) | 1 |
| <input type="checkbox"/> | AAA Batteries | 2 |
| <input type="checkbox"/> | User's Manual | 1 |

■ ***Requirements***

Windows® 98SE/ME/2000/XP/VISTA/7

Mac OS 9.1 or higher

An available USB port

Chapter 2 Getting Started and Operation Mode

■ *Inserting the batteries*

Open the battery cover in the back and insert two AAA batteries.

■ *Connecting the USB receiver*

Take out the USB receiver in the back (please refer to page 6), label side down and plug it exactly into an USB port. Do as follows, depending on operating system:

□ **Windows® 2000/XP/VISTA/ 7**

The operating system identifies the receiver as a “USB Human Interface Device” and begins installation automatically. Follow the instructions or messages on the screen to complete the installation.

□ **Windows® 98 SE/ME**

The system prompts you to insert the operating system CD-ROM. Follow the instructions on the screen to install the required drivers.

□ **Mac® OS**

The receiver is automatically installed and enabled.

■ *Opening PowerPoint and other necessary files on your screen*

■ *Turning on the laser pointer*

Press “Fn” and “On/Off” button on the right side simultaneously till the front Mode Indicator blinking in red.

■ *Operation Mode*

There are two operation modes: One is 『PowerPoint Presentation Mode』, another is 『Multimedia Mode』, Default setting in 『PowerPoint Presentation Mode』.

(Please refer to page 7 “Fn: Change Mode”)

Note: There are 3 colors words on the right side of the Wireless Media Presenter:

1. **White** for PowerPoint normal operation (please refer to page 7)
2. **Green** for PowerPoint special functions (please refer to page 8)
3. **Yellow** for Multimedia remote control (please refer to page 9)

Note: Please make sure you are on the right mode when use.

■ **Take out the USB receiver**

Figure 1 Pull up the USB receiver as the following figure.

Figure 2 Then you can easily take the USB receiver out from the compartment.

■ **Put back the USB receiver**

Figure 3 Insert the bottom of the USB receiver with the label side up.

Figure 4 Press the USB receiver down to the compartment firmly.

Chapter 3 Using the 4-in-1 Wireless Media Presenter

- **PowerPoint Normal Operation:** Function of each key when not used with Fn key
Figure 5

Keys in white	Function description

Chapter 4 Additional Information

■ **Specifications**

□ **System**

Frequency range: 2400~2483MHz

Remote range: Approx. 100 feet (30 meters) indoors, 328 feet (100 meters) outdoors

Operating voltage: Remote control: 2.4V~3.3V, Laser: 2.6V~3.3V

Power: AAA batteries * 2

Very low power consumption: Normal operation <10mA

Laser operation < 20mA

Sleep < 10uA

Output power: Under 1mW

□ **Physical Dimensions**

Size: Tx: 130(l) x 38.2(w) x 23.5(h) mm. Rx: 49(l) x 16(w) x 3.5(h) mm

Weight: Approx. Tx: 60 grams (include batteries) Rx: 2.6 grams

□ **Environmental Requirements**

Temperature:

Operating: 0°C (32°F)~60°C (140°F)

Non-operation: -10°C (14°F)~65°C (149°F)

Humidity(non-condensing):

Operating: 10%~85% RH

Non-operating: 10%~95% RH

□ **Laser**

Semiconductor laser($\lambda = 650 \text{ nm}$), emission duration: continuous

Laser output power: Max.0.95 mW

Note: Design and specifications are subject to change without notice.

■ **Care and Maintenance**

- For cleaning, you are advised to use a soft, slightly moistened cloth.
- Avoid using solvents or abrasive substances.
- Do not open the presenter: for maintenance, consult qualified staff only.

Trouble Shooting

Question	Possible cause	How to resolve
Need to install software for first use of the Presenter?		No, this is a plug and play device, you do not need to install any software.
Need to link ID before first use?		No need
Can you use two Presenters in a room at a same time?		Yes, you can, but we suggest you implement ID change in advance to avoid interference. (please see page 8).
Laser pointer malfunction	Forget to switch on the laser pointer or laser function is automatically turned off after 30 minutes idling time.	<ol style="list-style-type: none"> 1. Make sure you are on the right mode. 2. To switch on the laser pointer (please refer to page 7)
Remote control malfunction	Interfered by other RF signal	<ol style="list-style-type: none"> 1. Make sure you are on the right mode. 2. Implement ID change (please refer to page 8)
Laser pointer and remote control both malfunction	Put battery in wrong direction or run out of battery power	<ol style="list-style-type: none"> 1. Make sure you are on the right mode. 2. Check the batteries
